PAW Boards are highly recommended by the Victoria P.D.S.S., a support service for pupils with motor difficulties in Birmingham.

The use of a PAW board encourages good posture and positioning whilst writing and drawing. For many children it makes writing a far more comfortable activity and there is a noticeable improvement in their work.

There are several versions of a sloping writing surface available commercially. We prefer the PAW Board because it is virtually indestructible, portable, colourful, and easily cleaned. It can be used by pupils of all ages.

Every classroom should have at least one Paw Board-anyone can benefit from its use!
